companied by a reporter, entered the Covington jail and were shown to Jackson's and Walling's cells. The two condemned men on seeing the mayor approach came forward, spoke and shook hands. Walling had an old pipe in his mouth, but the to-bacco had burned out, a fact which he did not appear to notice. He was pale, but "Have you heard the news regarding the Court of Appeals's decision in your case?"

asked the reporter of Walling. "Yes, a few moments ago," calmly replied the prisoner, leisurely shifting his pipe from his mouth to his right hand. Well, were you surprised? "I was. To tell the truth, I confidently

Jackson "Too Wicked to Die."

Special to the Indianapolis Journal. FRANKFORT, Ky., Dec. 12.-It was reported that Attorney Crawford, Scott Jackson's lawyer, was in town, but no motion for a rehearing has been filed, nor has Governor Bradley been seen by Crawford. Several letters have been received, some of which were signed, while others were anonymous, asking Governor Bradley to use executive elemency in Scott Jackson's case. One letter asked that he be sent to the penitentiary for life, "because he is too wicked to die.

COURT SENSATION.

Correspondent Sent to Prison for Stealing a March on His Rivals. FRANKFORT, Ky., Dec. 12.-A sensation accompanied the rendering of the decision of the Kentucky Court of Appeals in the Walling case to-day. Frank G. Robbins, of Cincinnati, who has been here assisting E. G. Burkam, of the Cincinnati Times-Star. was arrested to-day for contempt of court. It is claimed that Robbins clandestinely secured means of eavesdropping into the court consultation room, and gave out the Walling decision to the Times-Star over an hour before it was announced by the court. When Robbins was arraigned it was ascertained that he had two flags-one white and one black-the latter indicating a decision affirming the death sentence in the Walling case. Representatives of other papers saw him wave the black flag, and informed the court. Robbins belongs to one of the most prominent families of Cincin-

Later-Robbins was released by order of Chief Justice Pryor, and was soon on his way to Cincinnati. Robbins would not have been arrested but for the complaint of the reporters of a paper which got left on the news. Under the circumstances the judges ordered him into custody but, regarding his offense as a piece of sprightly newspaper enterprise, decided not to press Frank Campbell Robbins, and he accompanied Mr. E. G. Burkam, who was in charge of the Times-Star work here, to Frankfort merely as a friend and had no idea of taking any part in the work.

Mr. Chamberlain Sues Mrs. Woodbury, of Christian Science Fame.

BOSTON, Dec. 12.-Frederick D. Chamberlain, an extensive real estate dealer of Miss Anna Potter, a wealthy young woman and a leader in Boston society a few years ago, has filed papers in a suit against Mrs. Josephine Curtis Woodbury and her husband, Frank Woodbury, of this city. The case is an action of tort and the damages are placed at \$25,000 for the alleged alienation of the affections of the wife of Mr. Chamberlain, Mrs. Woodbury is widely known as a student and teacher of Christian science. Woodbury is interested in several financial enterprises in which, it is alleged, many of Mrs. Woodbury's pupils have also been induced to invest. Mr. Chamberlain claims that his wife for two years or more has been so completely under he influence of Mrs. Woodbury that she has refused to live with him or to accompany him to Spokane and has closed her house in the fashionable Aberdeen district of Brookline and has refused to live apart from Mrs. Woodbury until her husband beby Mrs. Woodbury.

Experience of the Steamship St. Louis on Her Western Trip.

NEW YORK, Dec. 12.-The American line steamer St. Louis, which arrived to-night from Southampton, was over twenty-five hours behind her record time. She sailed from Southampton on the 5th instant, During the 6th, 7th, 8th, 9th, 10th and part of the 11th the steamer was in the midst of a howling gale, with a heavy head sea. Her average speed did not exceed 14 8 knots. The Cunader Lucania, which left Queenstown on Sunday last, passing Daunt's Rock at 9:45 in the morning, should have reached the light ship here at 12:33 yesterday after-noon to have equaled her record of five days, seven hours and twenty-three minutes, but she, like the St. Louis, is delayed and has not yet been reported. No anxiety is felt regarding her safety, this being the season of the year for rough ocean weather.

GERMAN GOVERNMENT POLICE ES-PIONAGE SEVERELY CRITICISED.

Much Comment at Berlin on Revelations of the Luctzow Trial and the Arrest of Baron Von Tausch.

(Copyright, 1896, by the Associated Press.) BERLIN, Dec. 12 .- The revelations of the | Spaniards." Luetzow trial and the arrest of Baron Von Tausch, the commissioner of detectives, are having unimagined consequences, one of which is that the whole police spy system, as organized under Von Puttkamer and perfected under Zu Eulenberg and Von Koeller, will be either modified or abolished. The Cabinet has held daily sessions during the week elaborating a plan for bringing about one or other of these results. The Emperor, since his return from Hanover and Buckenberg, has conferred with Count Zu Eulenberg, Police Chief Windheim, Prince Von Hohenlohe and Baron Marschall von Bierberstein, and it is reported in court circles that his Majesty is in no way satisfied with the police court espionage methods, believing that the exposure will prejudice the home authority and German influence abroad. A scene between the Emperor and Baron Marschall at the new palace is reported to have been very animated. It is even claimed by some of the Emperor's entourage that the minister for foreign affairs tendered his resignation, which the Emperor refused, the time being, to accept, It is certain, however, that the court clique hostile to Baron Marschall and Prince Hohenlohe, with Count Zu Eulenberg at its head, is again in the ascendant, and unexpected developments may be looked for at any moment. It is significant that his Majesty conferred with everybody on the recent events before he consulted with Prince Hohenlohe and Baron Marschall. The Emperor is conon to other topics, talking fluently, and fre- vinced of the necessity of overhauling the

Herr Bebel, the Socialist leader, has announced that at a mass meeting next Tuestiens regarding the supporters of Von Tausch. The Socialists intend to move in inal code the co-called spy paragraphs. One of the most sensational articles of the week appeared in the Vorwaerts, the Socialist organ. It was entitled "Signs of the Times," and in it the rottenness of German political life was exposed and compared with the ante-revolutionary epoch in France. The Eulenbergs, Count Von w dersee and the Bismarcks are openly charged with having prompted Von Tausch in his past doings. Five hundred thousand copies of the Vorwaerts were sold on Tuesday before Von Dorse, its editor, was arrested in the streets. The remaining copies of the edition were confiscated. The Vorwaerts will be prosecuted for slander. Nearly all the German papers strongly condemn the police-spy system and agree that

further disclosures are imminent.

President Cleveland's proclamation restoring tonnage dues has caused a great stir in government circles, where it is condemned. It is believed that Germany's remonstrances will lead to their withdrawal. The Kreuz Zeitung says: "As a matter of fact, we have many more grudges against the Americans than they have against us for it is an established fact that German sugar pays America more than the treaty regulations fix. This is not even denied by the Americans, and that alone would enable us to retaliate by some such measure In fact, it is indispensable, if the United States leads our ships with extra burdens such as are not imposed by European countries. Cereals, cotton, petroleum, butter, apples and especially meats, are all open to retaliatory treatment on our side. Americans need us more than we need them, though we do not deny that they are good customers of our manufacturers. But if what is said of McKinley's intentions proves true, the Yankees themselves will rid us of any remaining scruples. As Mc-Kinley is only the tool of the great monopolists, we may know what to expect.' The other Agrarian and Conservative papers, such as the Tagliche Rundschau and Deutsche Zeitung, print editorial articles of

Big collections have been made here in behalf of the Hamburg strikers. The sum of 163,000 marks was collected in one day here for their use. The Socialists have called six huge mass meetings for Tuesday, in order to express their sympathy with the strikers. The meetings will be addressed by the Socialist members of the Reichstag. There have been a number of excesses during the strike at Hamburg, and numerous arrests have been made. The sailors, however, are now weakening, and at their meetings to-day there was a strong feeling in favor of peace negotiations. They appear inclined to patch up their disputes, as it is stated that, in spite of the large sums of money collected for them, their funds are running out. The meetings to-day adopted resolutions in favor of coming to an arrangement with the employers. Seattle, Wash., and Boston, who married and a conference is to be held to decide upon the compositions of a board of conciljation. The strikers insist that they do not desire supremacy, and claim that they on-ly wish to settle the question of wages and the conditions of labor. They deny also that they intend, if peace is concluded, to start a new strike as soon as possible.

ZERTUCHA A JUDAS.

(Concluded from First Page.) in betraying Maceo to the Spanish assassins, and who made a show of surrendering to the Spanish soldiers at San Felipe and confirmed Maceo's death, joined the insurgents under Brigadier Pedro Diaz during the month of February. He formerly served as surgeon in the Spanish army and navy, and was afterwards elected mayor of his native town, Meldina del Sur. When he joined the Cubans he was appointed chief surgeon of the brigade of Batabano. His advent into the Cuban ranks caused considerable comment at the time, as he had promised the government to remain neutral. Zertucha remained with Brigadier Diaz, operating in the southern part of Havana province, until March

when the brigade was united to the main

army of Maceo on his return to Pinar del Rio. When General Gomez formed the

division of Pinar del Rio, the post of sur-

geon, with the rank of lieutenant colonel.

was given to Zertucha Maceo never held Zertuch in great esteem personally, as he was addicted to drink this being the one fault that the general could not overlook in a man. When Maceo's surgeon general, Huga Roberts, was wounded, some one had to take his place, and, as Zertucha was the only person who in rank and skill was entitled to the position, he was appointed. Roberts was pro moted to inspector general of the west. Zertucha's surrender at San Felipe, in the province of Havana, clearly indicates that he accompanied Maceo across the trocha and also that some powerful reason actuated him to take a step which would forever disgrace him in the eyes of the men

The Spanish Minister Denies the Story -Senor Quesada's Views.

WASHINGTON, Dec. 12 .- Senor de Lome, the Spanish minister, to-night bitterly denounced the statements made by General Carrillo in the letter given in to-day's Jacksonville dispatches. He said the reports that Maceo was assassinated or killed by any treachery were false and absurd. and to give credence to them would be an insult to judgment. Beyond this the minister declined to discuss the story.

The circumstantial details were significant to the Cuban delegation, and for the first time Senor Quesada, the charge d affairs of the Junto, admitted the probability that Maceo was dead. He said the cause of liberty would not be hurt by Maceo's death, for his loss would be offset by a reaction that would probably follow here and in the Cuba in the insurgents' interest

MACEO'S BODY BURIED. Friends of the Insurgent Leader Paid

for the Privilege. KEY WEST, Fla., Dec. 12.-Numerous bands of insurgents continue to move in the vicinity of Havana. Their number is es-

timated at between 3,000 and 4,000. It is claimed that Maceo's friends, after paying a liberal sum of money, were able to bury the insurgent leader this morning in the Havana Cemetery de Colon. The story is to the effect that several of the warm personal friends of Maceo succeeded in bringing the body of the insurgent general on horseback to Havana, from Rincon, near Bejucal. All previous steps were carefully guarded and the arrangement for the interment of the remains cost a liberal amount of money.

Passengers from Cuba to-night state that the report of Maceo's death is false. A lady on board the boat read a letter purporting to have been written by Maceo since his reported death. It is also said that the Spanish authorities have been promising daily to bring the body of Maceo to Havana, but up to the present time they have not been able to produce it. A gentleman who arrived from Havana to-night stated that opinion there, up to the time of his departure, was about equally divided as to the matter of Maceo's death. The Spanish population generally insist that Maceo is dead, while the Cubans have persistently held to the contrary opinion.

HAVANA, Dec. 12.-It is announced in official circles here that the accounts received by the Cuban Junto detailing the manner in which Maceo met his death are absolutely untrue. The statement that Maceo was assassinated through the instrumentality of Dr. Zertucha, who it was claimed led Maceo and his staff across the trocha, where they were met by Ahumada and the Spanish soldiers and murdered. after being invited to a conference, is officially and emphatically denied. Dr. Zertucha, in an interview here, says that he has not the slightest idea of the place where the insurgents have buried the remains of Maceo and young Gomez.

TOPEKA, Kan., Dec. 12.-It is stated here that Governor-elect Leedy in his forthcoming message to the State Legislature will recommend a general consolidation of county governments in the thinly settled districts of western Kansas, where county governments organized in boom times are now maintained at a great expense to taxpayers. It has even been sug-gested that the forty counties lying west of the ninety-ninth meridian be reorganized into but eight counties, but it is stated that the Governor's message will not recommend any specific arrangements. The plan is sure to meet with determined opposition in many of the towns which would cease to be county seats.

HER BODY CREMATED.

Howard University Did Not Accept Dr. Caroline B. Winslow's Bequest.

WASHINGTON, Dec. 12.-The late Dr. Caroline Brown Winslow, the well-known woman physician who died this week, left a will bequeathing her body to Howard University to be carefully dissected by a woman medical student for the purpose of advancing her knowledge of anatomy. After that she desired that several parts of the skeleton should be wired together for the use of the Minor Normal School of the District, founded by her friend, Myrtilla Minor, the skeleton to occupy the place in the school the founder designed that her skeleton should occupy. Dr. Winslow desired this disposition of her body because the laws of the country require that every medical student shall obtain and dissect one human body before he or she can graduate or receive a diploma, and because there are no methods provided by which such bodies can be legally obtained except by beas a result of the alleged assassination.
